

# Telstra Network Field Scoper

Lectel are design leaders in the telecommunications, electrical and lighting industries, and a preferred service provider for a number of telecommunication suppliers, electrical utilities, councils and major developers.

An opportunity exists for an experienced *Telstra/NBN Network Field Scoper* in our Caboolture office. You will have expert knowledge of Telstra/NBN Copper & Fibre Networks. Your role will be to provide accurate field audit information & recommendations for the relocation of the Telstra/NBN infrastructure (Underground & Aerial networks) as part of simple and complex relocation works (RW) and Commercial Works (CW) projects.

Successful applicants will need to demonstrate recent & relevant understanding of the Telstra/NBN external network architectures. The ability to read & understand civil roadworks plans and cross sections would be advantageous. Demonstrate extensive knowledge of civil works construction techniques would also be advantageous.

To secure an interview you will ideally have the following skills and attributes:

- ◆ A minimum of 5 years' experience in the Telco external field works areas.
- ◆ Operational knowledge & understanding of Telstra/NBN Systems.
- ◆ Current drivers licence.
- ◆ Telstra/NBN copper network knowledge.
- ◆ Telstra/NBN & other carriers Optic Fibre knowledge.
- ◆ AutoCAD skills are an advantage.
- ◆ A commitment to providing high quality results.
- ◆ Be self-managed with the ability to work independently.

The primary duties for this role are:

- ◆ Carry out field inspections & capture accurate network data.
- ◆ Liaise with Clients, Councils, Telstra (& other Carriers) & Main Roads.
- ◆ Supply and recommend Copper & Optic Fibre network relocation works solutions for RW Projects.
- ◆ Supply detailed plan mark-ups for drafting.
- ◆ Review design projects to ensure accuracy.
- ◆ Optimise productivity to meet established targets.
