

# Experienced Drafter

Lectel are design leaders in the telecommunications, electrical and lighting industries and a preferred service provider for a number of electrical utilities, telecommunication suppliers, councils and major developers.

An opportunity exists for an experienced Design Drafter to work in our telecommunications team in our Caboolture office. This position requires applicants to be highly skilled in the use of AutoCAD. Ideally the successful applicant will have at least two years relevant drafting experience or those with a trade background are also encouraged to apply.

To secure an interview you will ideally have the following skills and attributes:

- ◆ Strong work ethic and commitment to providing high quality results
- ◆ Desire to learn and a self starter
- ◆ Good communication skills and confidence to carry out multiple tasks
- ◆ Energy, enthusiasm and excellent personal presentation

The primary duties for this role are:

- ◆ AutoCAD drafting, modifications and drawing setups
- ◆ Draft plans from design concepts
- ◆ Attend site visits with designers

Applicants possessing a background in Telstra or those with a telecommunications background or trade experience would have a distinct advantage.
